PROFILE	Data engineer and machine learning enthusiast skilled in building and deploying deep learning models. Proficient in Python, SQL, and data visualization tools (Tableau, Streamlit). Passionate about translating complex data into actionable insights through storytelling. Eager to contribute to roles that blend data science and education.	
PROJECTS	Sign Vision – Indian Sign Language Interpreter - Engineered a CNN + OpenCV model achieving 90%+ gesture recognition accuracy. - Built a real-time Streamlit interface for live gesture detection. - Integrated Google Translate API to generate multilingual output, improving accessibility for hearing-impaired users. Project Link – GitHub Diabetic Retinopathy Detection - Architected an AI pipeline to classify retinal images by disease stage and generate personalized eye-care PDF reports. - Deployed via Streamlit for real-time, user-friendly predictions to support early detection. - Achieved 92% accuracy with optimized CNN architecture. Project – Diabetic Retinopathy Road Accident Dashboard (Tableau) - Designed and deployed an interactive Tableau dashboard analyzing 5+ years of Indian road-accident data. - Identified accident-prone regions and surfaced actionable insights to support data-driven policy decisions.	
INTERNSHIPS	Olcademy – Data Analyst Intern Mar 2025 – Sep 2025 - Built ETL pipelines handling 100,000+ records weekly. - Automated data cleaning from 50+ sources, reducing manual preparation by 30%. - Delivered clean datasets supporting business and product insights. Freshtronics – Data Analyst Intern Sep 2024 – Oct 2024 - Developed 5+ dashboards to track business performance. - Cleaned, preprocessed, and visualized data using Python and Excel. - Supported predictive insights for product strategy with senior analysts.	
EDUCATION	Centurion University of Technology and Management 2022–2026 Computer Science Engineering CGPA: 8.9	
SKILLS	Languages	Python, SQL, Java, C
	Libraries/Frameworks	Pandas, NumPy, TensorFlow, OpenCV, BeautifulSoup, Selenium
	Tools/Platforms	Tableau, Streamlit, Hugging Face, GitHub, MS Excel
	Core Concepts	Data Analysis, Data Cleaning, Statistical Methods, Predictive Analytics, Web Scraping, A/B Testing (basic), DBMS
